## **Personal Beliefs Exemption Form**

## Kindergarten – 12<sup>th</sup> Grade Only

Arizona Department of Health Services (ADHS) strongly supports immunization as one of the easiest and most effective tools in preventing diseases that can cause serious illness and even death. ADHS also respects the rights of parents to decide whether or not to vaccinate their child.

By state law, (A.R.S. §15-873) a child will not be allowed to attend school until either proof of immunization or a completed exemption form is submitted to the school. The information below is provided to ensure that parents are informed about the risks of not vaccinating.
